The mystery is our history! The 250th
Celebration Committee presents
Untold Stories of Mansfield
A learning and engaging opportunity
to hear about some of the unique
and rarely heard about stories
that have shaped the
Town of Mansfield!

Led by longtime 5th grade teacher Dr. Rayna L. Freedman, this conversation explores the impact of growing up in a close-knit town, the ways our community shapes us, and how we carry that spirit forward into the future.

Panelists, eight former students of Dr. Freedman (ages 10-31), will share their stories around four key themes:

Roots & Belonging – Finding connection and identity in our early years.

Growth & Legacy – How community experiences shape who we become.

Giving Back – Investing in the places and people that raised us.

Change & Hope – Reflecting on the past and imagining the future.

Join us for a heartfelt conversation that honors not just our town's history, but its people—the students, teachers, neighbors, and friends who make it home.
